1. Vision (1 paragraph) "Steady Schedule is a simple, reliable scheduling tool for small businesses. No ads. No gimmicks. Schedule in Seconds."

2. Core Principles • Two-click assign
   • No overbooking
   • Optional overtime toggle
   • Published schedule concept
   • Offline view of last published schedule
   • No unnecessary confirmations

3. User Roles Admin:
   Create positions
   Create shifts
   Assign employees
   Publish schedule
   View dashboard stats
   Approve swaps/time off
   Employee:
   View schedule
   Request time off
   Request swap
   Receive notifications

4. v1 Must-Have Checklist The stuff you already listed.

5. v2 Parking Lot (important) This is where future ideas go. Not in v1. Not creeping. Just parked.
